Town Manager Report 3/11/21

Town Office/Town Clerk

- Colleen is scheduled to clean the gym once a week, more often if it is rented.

Public Works

- Steve was off the past week but is back now continuing clean up from the storm last week, CMP takes the trees down but does not clean them up.
- Roads were posted last week and should be posted until at least mid May.
- Chad Davis covered for Steve last week and really went above and beyond, we thank him for that.

Fire Department

- Nothing of note the past two weeks

Transfer Station

- Nothing of note the past two weeks

Town Manager

- Wrapped up work on the budget and it is ready for review by the budget committee, select board already has a copy.
- Each budget committee member will be given a binder with the budget, budget review schedule and space for notes.
- Revision has submitted their quote to CMP for the new service for the EV charging stations, with the town doing some work we were able to keep the costs to within the grant amounts.
- Now have the design for the ADA ramp on the left side of the town office building, now working on shopping it out for quotes. This is a project we can do as soon as the ground is ready as we have the bond money for it.
- Lots of work coming to planning board it seems in the next few months, with the cell tower review, comp plan and possible revisions to the land use ordinance from the comp plan and others.
- Lots of behind the scenes progress is being made on the website, including a new section for locals and others looking to start a business in Monson!
- ConnectME has opened the grant process for applications, so premium will be working on getting that submitted.
