- Working with CMP and Revision to ensure there will be not out of pocket costs to the town for EV chargers, should have a final word Thursday or soon thereafter.
- Working on getting an RFP together for some construction projects, I.E the ADA ramp at the town office, new sides doors at the gym and outside roofs for those doors.
- Sent an email to Insource to ask about the power bills and why it seems like they are so much higher when we were supposed to be saving money now.
