Town Manager Report 8/26/21

Town Office/Town Clerk

- Roberta has chosen to move on to focus on work outside of the town office. The search to fill the position has started, but there is no rush.
- Have reached out to over 40 contractors about the ADA ramp and gym doors, so far 4 have said they will consider the project. Will be following up next week with them and others.

Public Works

- Steve has been asked to have the roadside mowing down by 9/1, he agreed.
- Allstate has completed the chip seal and all the loose rock that was swept has been brought to the transfer station for our use.
- Another update to the road plan is coming together and will be available at either the next meeting or the one after.
- Chad Davis and I did meet to go over the concerns from last meeting about the ditching work.

Fire Department

- The governor's healthcare worker vaccine mandate extends to fire departments. More to come on this as this is undoubtedly going to be many changes over the next few weeks.

Town Manager

- We received the quote from our bank about leasing the solar panels, this is an item for further discussion at the meeting.
- Another item on the agenda is setting the mil rate. The good news is that the highest mil rate option is lower than last year's mil rate!
- Have started working on a contractor database with contractors for different services and their preferences.
- Will be meeting Thursday with Bob Keyes to go over the downtown WIFI system.
- Reached out to a few groups or people for updates, as of writing this no update yet from Tilson Tower, Zoning map being added online and Premium Choice about the fiber lines.
